

PHYSICAL EDUCATION CURRICULUM LEARNING ACROSS EUROPEAN BORDERS

SEMINAR 1: PE CURRICULA ACROSS THE UK

Join us for the **first seminar in a new European series (supported by EERA)** exploring how Physical Education (PE) is shaped across different national contexts – and how it might be re-imagined becoming more inclusive and meaningful for all young people.

In this opening event, speakers from the **four nations of the UK** will share insights into their respective PE curricula, examining both **similarities and differences**. Through critical reflection and cross-border comparison, we aim to spark new ideas and open up space for creative, future-oriented thinking about **what PE could become**.

This is an opportunity for teachers, researchers, and educators to reflect on their own contexts, explore possibilities for change, and join a **Europe-wide conversation** about the future of PE.

Monday 3rd November 2025

15:00-16:00 (GMT)
