

# PHYSICAL EDUCATION CURRICULUM LEARNING ACROSS EUROPEAN BORDERS

## SEMINAR 2: PE CURRICULA WITHIN AUSTRIA AND SPAIN

Join us for the **second seminar in a new European series (supported by EERA)** exploring how Physical Education (PE) is shaped across different national contexts — and how it might be re-imagined becoming more inclusive and meaningful for all young people. During this presentation, **speakers from Austria and Spain will share insights into their respective PE curricula**. Through critical reflection and cross-border comparison, we aim to spark new ideas and open up space for creative, future-oriented thinking about **what PE could become**.

This is an opportunity for teachers, researchers, and educators to reflect on their own contexts, explore possibilities for change, and join a **Europe-wide conversation** about the future of PE.

Wednesday 10<sup>th</sup> December 2025

16:00-17:00 (GMT)

# PHYSICAL EDUCATION CURRICULUM LEARNING ACROSS EUROPEAN BORDERS

## SEMINAR 2: PE CURRICULA WITHIN AUSTRIA AND SPAIN

### Speakers:

**Dr Sebastian Ruin** is a Professor of Movement and Sport Pedagogy at the University of Graz (Austria). He was awarded his PhD in 2015 at the German Sport University Cologne (Germany) and habilitated in 2021 at the Bergische Universität Wuppertal (Germany). His main work fields are educational theory in movement and sport, curricula research, the role and understanding of the body in sport-pedagogical settings, as well as diversity and inclusion in sport.

**Dr Alexandra Valencia Peris** graduated in Physical Activity and Sport Sciences, Primary School Education and has a PhD in Physical Education and Sports from University of Valencia. She currently works as a Senior Lecturer in the Department of Physical Education, Arts and Music of the University of Valencia. She is a member of the research group Physical Activity, Education and Society since 2007. Her research focuses on the areas of Physical Education, the promotion of healthy lifestyles in the school environment and Physical Education Teacher Education. In these areas she has participated in local, national and international research projects.
